KEY BENEFITS

FLEXIBLE HELP – Having the help you need when you need it saves you money on labor costs. Local 416 members are available when you need them, for as long as you need them, even in cities where you don't usually do business. When you are done, their employment concludes or you can move them to another job.

TRAINING– We spend more than \$2000 per Apprentice every year in training, and they receive over 820 training hours to become Journeyman. We have a training center that is provided to the contractor and workforce at no additional charge. How much do you spend each year on safety training alone? Every Union employee you hire will save you that amount (typically between \$500 and \$2000 per employee) every single year.

LOWER SAFETY- RELATED COSTS– Our training programs stress the connection between safety and competitiveness. Local 416 members put safety first every time, which means you save on comp costs, downtime costs, and absenteeism costs.

PRODUCTIVITY– Higher productivity means higher profits. Local 416 members have to be the best trained most highly skilled and productive craftsmen available anywhere. That means no rework. That means on-time and on-budget. That means no unskilled hands

CONCLUSION

Local 416 is committed to your economic success.
